

Unified Hearts

(Verse 1)

In a world where shadows dance,
And fear can cast its heavy trance,
There's a beacon, bright and true,
Guiding all with love anew.

(Chorus)

All we need is love, love for one another,
Hearts entwined, sisters and brothers.
With love as our anthem, we'll rise above,
In unity, embracing peace and love.

(Verse 2)

Through the storms and raging tide,
Love will be our steadfast guide.
In every heart, a flame ignites,
Breaking chains and scaling heights.

(Chorus)

All we need is love, love for one another,
Hearts entwined, sisters and brothers.
With love as our anthem, we'll rise above,
In unity, embracing peace and love.

(Bridge)

Let the chorus swell and soar,
Echoing from shore to shore.
Love's melody, a timeless song,
Uniting hearts, where we belong.

(Chorus)

All we need is love, love for one another,
Hearts entwined, sisters and brothers.
With love as our anthem, we'll rise above,
In unity, embracing peace and love.

(Outro)

So let love lead the way,
Brightening each and every day.
For in the end, it's clear to see,
Love is all we truly need to be free.
